

L4/5 -Arrange the statement clips into the correct order to form a definition. You may need to add you own connectives and punctuation (and, but, so, with, that etc.)

good services for all

they meet the needs of existing and future residents

sustainable communities are places where

contribute to a high quality of life

protect the environment

they are safe and people are treated equally

well planned, built and run

people want to live and work, now and in the future

L5/6- Change the unsustainable definitions into a definition of sustainable communities

Unsustainable communities are places where people don't want to live and work, either now or in the future. They don't meet the needs of existing and future residents, they are bad for the environment, and lead to a low quality of life. They are unsafe and poorly planned, built and run, and unequal access to services where people are treated differently.

L6 +- Using the different ideas provided create your own dictionary definition of sustainable community

Active, inclusive and safe - *Fair, tolerant and cohesive with a strong local culture and other shared community activities*

Well run - *with effective and inclusive participation, representation and leadership*
