

CPI1 Preparation of news stories for oral work on 18/10/2017

In the next lesson, you are going to present and discuss various news stories of your choice in small groups.

Preparation

Form groups of 4 students. Each student in the group must find a news story from a different section of an English-language news website.

Look for stories in the following sections:

- World/international news
- Tech news
- Environment/ecology news
- Sports news

Using the "news reading log" document provided by your teacher as a guide, prepare to present your chosen news story to the class. Be sure to do all of the following:

1. Note the source of your story (ie, the name of the website), the medium used (ie, written, audio, audio/visual), the date.
2. Write a summary of the story.
3. Be prepared to express your opinion on the issue.
4. Note at least 5 new items of vocabulary that you learned in relation to the story.
5. Write some questions to ask your classmates in order to discuss the issue.

Make sure you bring your news reading log to the next lesson!
