

Under the circumstances, it will no longer be possible for your groups to perform your English-language news bulletins in class. For this reason, we have made the following modification to the news bulletin preparation instructions:

1. Each student must make a video or audio recording of their part of the news bulletin.

When making your recording, please remember the following:

- a) Your presentation must not sound “read”. For audio recordings in particular, it is important to vary the pace and intonation of your speech to make it attractive to the listeners and maintain their interest.
- b) Your presentation is one of several in a whole broadcast. Please make the transitions from one part to the next clear (see the “Useful Expressions” from your original instructions document).

2. Each group must send an email to their teacher specifying the order of the recordings. Please send the audio/video files and your visual aid by email or share them on the google drive.

3. To allow you time to reorganize and readjust, we have extended the deadline for submitting your recordings to Thursday 16th April at midday.

Good luck!

Magdalen, Robert, Beth, Sébastien.
