

Deloitte.

How high are your ambitions? Luxembourg. Shape your future

Join our International Advisory and Consulting Department in Luxembourg as an:
Software Engineer / Analyst Trainee (m/f) – Job based in Luxembourg

Our Fund Reporting and Tax Reporting teams provide an array of high-quality reporting services for Investments Funds. Our IT team helps to develop a unique reporting tool that will enable us to provide excellent Fund and Tax Reporting services to our clients. We are looking for individuals who are passionate, creative and committed to rethink the way people do their work.

As a Software Engineer / Analyst Trainee you will focus on software engineering while developing expertise in the Investment Funds industry in order to bring reporting processes to the next level.

Your role

As a Software Engineer / Analyst Trainee you will:

- Design, develop and test reporting web applications (Microsoft .Net environment, Test Driven Development, Peer Programming, Agility, Scrum...)
- Work in close collaboration with the users in order to analyze the business and identify opportunities for improvement
- Maintain, support and improve existing systems
- Take on other responsibilities in line with your skills and experience

Your profile

- Currently studying Engineering or Information Technology university
- Previous relevant professional experience (minimum an internship) is necessary
- You master object oriented programming and databases concepts (.Net C# or SQLServer would be an asset)
- You have good soft as well as analytical skills
- You are actively seeking to gain new skills in IT and beyond

- You speak fluently English, knowledge in French will be considered as an asset
- Team player, motivated, eager to learn

If you're ready to take your career to the next level in a challenging international environment, focusing on continuous learning, dynamic teamwork and cutting edge solutions for clients, you're ready for Deloitte!
