

Job Description

Business & Systems Integration Intern-0022474

Description

Bring your talent and passion to an organization at the forefront of business, technology and innovation. Join Accenture as a summer intern and you can help make great ideas happen for some of the world's most dynamic companies. With broad global resources and deep technical know-how, we collaborate with clients to cultivate ideas and deliver results. Choose an internship at Accenture and enjoy an innovative environment where challenging and interesting work is part of daily life.

Our business & systems integration professionals are responsible for delivering large-scale, complex programs that marry processes with solution development and technology to enable clients to transform the way they do business.

As an intern, you will foster skills need to help organizations effectively apply technology for competitive advantage. The project(s) you take on will present a new challenge and will give you exposure to clients, business issues and technologies.

You will be part of a diverse and collaborative team delivering large-scale, complex programs that marry processes with technology to help our clients achieve high performance.

Responsibilities

As a business & systems integration analyst intern, you will participate in a variety of roles, including those of a full-time consulting analyst. Interns work on client or internal engagements, typically participating in planning, designing and/or installing management information systems. You will foster skills need to help organizations effectively apply technology for competitive advantage. Working as part of an Accenture team, intern assignments may include:

- Analyzing and documenting current business processes and technologies
- Designing and testing new business processes, capabilities and technologies
- Developing communications and training materials
- Building portions of an application

Qualifications

Basic Qualifications

- Current undergraduates with a graduation date of Spring 2015 and have demonstrated outstanding performance in one of the following preferred majors:
 - Engineering (all disciplines)
 - Computer Science / Computer Engineering
 - Information Systems / Decision Sciences
 - Mathematics / Statistics / Sciences

- o Finance / Accounting / Economics
- o Business Marketing / Management
- o Liberal Arts / Communications
- TN Visa Eligible

Preferred Qualifications

We are seeking highly motivated individuals who meet the following criteria:

- Previous technical and programming aptitude/knowledge
- Eagerness to contribute in a team-oriented environment
- Ability to work creatively and analytically in a problem-solving environment
- Desire to work in an information systems environment
- Excellent leadership, communication (written and oral) and interpersonal skills
- Responsible for transportation and related fees to their work location

Your application must include a cover letter, resume and transcripts from your post-secondary education program. Applications that are not complete will not be considered.

Accenture does not discriminate on the basis of race, religion, color, sex, age, non-disqualifying physical or mental disability, national origin, sexual orientation, gender identity or expression, or any other basis covered by local law.

About Accenture

Accenture is a global management consulting, technology services and outsourcing company, with approximately 275,000 people serving clients in more than 120 countries.
