

Internship - Stoxx Ltd. - Product Development

Deutsche Börse - Frankfurt Main

Internship - Stoxx Ltd. - Product Development (female/male)
We have a vacancy at Deutsche Börse AG in Frankfurt am Main

Duration: 4 - 6 months / Start: immediately / Working hours (per week): 39 hours

STOXX Ltd. is a global index provider, currently calculating a global, comprehensive index family of over 6000 strictly rules-based and transparent indices. Best known for the leading European equity indices EURO STOXX 50, STOXX Europe 50 and STOXX Europe 600, STOXX Ltd. also maintains, calculates and markets the indices of Deutsche Börse AG and SIX Group AG, among them the DAX® and the SMI® indices. The STOXX indices are licensed to more than 400 companies, among them the world's largest financial products issuers, capital owners, and asset managers. They are used not only as underlyings for financial products such as ETFs, futures and options, and structured products, but also for risk and performance measurement. Without committed staff Deutsche Börse Group would not have developed into one of the most modern exchange organisations in the world. More than 3,700 employees work for the Group - a dynamic, highly motivated and international team. STOXX Limited is a leading provider of global indices as EURO STOXX 50®, STOXX® Europe 50, STOXX® Europe 600, STOXX® Global 1800 as well as STOXX® Select Dividend.

As an Intern - Stoxx Ltd. # Product Development you will have the outstanding opportunity to gain insight into our company's various fields of activity. Stoxx Ltd. bundles the index business of Deutsche Börse, Swiss Exchange and calculates own regional indices. Customers use indices as market indicators and yardsticks in the measurement of the performance of investment products and/or portfolios. In addition, they serve as underlying derivatives and structured products, e.g. for futures and options as well as index funds, leveraged products and certificates.

Your responsibilities

- Actively contribute to the development of new indices
- Participate in the continuous improvement of the existing products, services and their adaptation to changes in the respective financial markets
- Provide support in analyzing strategic product positioning and compile decision memo

Our requirements

- Students must be enrolled in an academic programme recognised by the state during their internship
- Students should be pursuing a masters degree or be in the final year of studies for a bachelors degree in mathematics, finance or economics
- solid understanding of the financial markets and financial derivatives

- Confident handling of MS Office applications (particularly MS Excel and MS Power Point)
- Knowledge in MS Access and programming skills (e.g. VBA) are desirable
- Proficiency in written and spoken English; Knowledge of German is desirable
- Have the ability to perform tasks in a time-efficient and autonomous manner

There are numerous good reasons to work for us: responsibility at an early stage, an international work environment and a varied internship-/ studentprogram.
